

FAMILY DRUG POLICY

We respect the drug and alcohol laws in the _____ family.

Respecting the laws mean that we do not use, buy, hold for others, experiment with, or hang out at events where illegal drugs are used which include but are not limited to crack cocaine, heroin, Meth, designer drugs, LSD, steroids, marijuana, and _____.

If we catch anyone in this family holding or buying illegal drugs, the police will be called and the drugs turned over immediately. If more than one violation of illegal drugs occurs, the offending party will be sent to a professional for addiction evaluation.

If the police call us for any violation of drug and alcohol laws any fines, legal fees and court fees will be paid for by the offending party from their job or from selling their car or other belongings.

If anyone is caught driving while under the influence, the car will immediately be taken away for _____ for a first offence, and _____ for a second offence.

If any over the counter drugs or herbal supplements are found to be abused (over-used to get a high), the offending party will be grounded for _____ days.

If the school sanctions one of our family for an infraction of school policy, Mom or Dad will not fight the system on their behalf but support the system in their attempts to make the school safe. In other words, the school will not be blamed if you are in the wrong place at the wrong time.

We respect the law by not smoking nicotine or taking nicotine products or using alcohol until the age of consent. If a person in this family is caught smoking cigarettes or drinking alcohol while under age, they will not be allowed to go to the next social event they planned on, *even important ones* like graduation parties, homecoming, or once-in-a-lifetime concerts.

Other: _____
